Sold out other varieties Soy Beans, Cow Peas and Velvet Beans

Note About Soy Beans Many crops of Soy Beans along the coastal sections that were harvested after the heavy rains last fall are of doubtful germination and utmost care should be used in purchasing your seed requirements. We have only purchased seed stocks harvested early—before the storms—and our Soy Beans are of exceptional bright quality—carefully re-cleaned and testing 90% germination or better.

Protect Your Crops--Use Inoculation

Specify Group Wanted. Prices Postpaid
